Note: All sessions in each level must be completed prior to progressing.

*"Revising a key corporate document that impacts every aspect of a business can be a daunting prospect. My team recognizes the significance of collaboration and the necessity of engaging in various productive and meaningful conversations to ensure project success."*

Principal Advisor

## Who should attend?

Technical managers who oversee various domains within our businesses, honing their technical competence over years of experience. However, project success requires stepping out of our comfort zones, broadening perspectives, and elevating team performance beyond our conventional boundaries. This necessitates us to become leaders who facilitate tangible results driven by openness, urgency, and commitment.

## Why should I attend?

Transitioning from a technical manager to an effective leader offers significant benefits, reshaping perspectives and fostering peace of mind as our motivated teams achieve outstanding results. Despite challenges, stepping out of our comfort zones proves less daunting; it's simply balancing our technical prowess with conversations to deliver solid outcomes.

Imagine visualising your harmonious team achieving outstanding results within deadlines and budgets, with their discussions producing actionable plans embraced by all. By completing the 'Project Success Through Leadership' program, outstanding project performance becomes achievable, reducing stress and boosting confidence in your team's abilities.

## Who is Tri Helix?

The Tri Helix Group specialises in project facilitation and collaboration and are masters at working with teams to help them achieve project success.

With over 20 years of experience, the team know what works and offers access to tools and experts designed to support a diverse range of industries.

In the last two years, our team have adeptly facilitated virtual meetings and workshops across 25 countries, involving 2,000 participants in over 30 projects.

## Pricing

Pricing varies based on the number of attendees. Please contact us to discuss options.

# Project Success Through Leadership

‘How a technical manager transitions into an effective leader’

3-month program delivered over 6 x 4-hour virtual sessions. Your journey to becoming an effective leader.

Note: All sessions in each level must be completed prior to progressing.

## Level 1 INTRODUCING project success through leadership

**Time commitment**  
4 hours virtual training

**Focus**  
To establish foundational knowledge, introduce core concepts, and set the context for deeper exploration for participants to build upon.

**Objective**  
To build awareness and understanding of how a technical manager makes the transition to an effective leader.

### What will you experience from this program

- Part A: Leadership Transition and Vision**
- Explore the technical manager role and embrace transitioning to leadership.
  - Envision a brighter future for yourself and your team guided by self-awareness.
  - Navigate the transition with confidence, seeing obstacles as shifts in focus.
- Part B: Effective Communication and Collaboration**
- Recognise the importance of conversations and project lifecycles.
  - Understand the critical role of collaboration and communication in project success.
  - Adopt new collaboration models and recognise the impact conversations have on project success.

- Part C: Projects and Value Creation**
- Set clear value creation expectations and understand project lifecycles' business benefits.
  - Drive value and success through effective problem-solving conversations.
  - Prioritise effective leadership and meaningful conversations for optimal outcomes.

### What's included?

- Pocketbook of Leader's Success Factors

## Level 2 EXPLORING project success through leadership

**Time commitment**  
4 hours virtual training

**Focus**  
To allow participants to delve deeper into the material, apply concepts, and engage in interactive learning experiences.

**Objective**  
To explore the success factors with an emphasis on the different conversations and how you can apply this within your work.

### What will you experience from this program

- Part A: Self-awareness and Assessment**
- Identify strengths and weaknesses to inform skill development.
  - Define personal and professional success for goal clarity.
  - Understand project lifecycle stages for better navigation and outcomes.
- Part B: Facilitation and Collaboration Skills**
- Harness facilitation to influence and enhance openness, technical work, and acceptance.
  - Recognise facilitation's importance for project success.
  - Embrace collaboration essentials to overcome obstacles and enhance teamwork dynamics.

- Part C: Continuous Improvement and Resilience**
- Appreciate project management to navigate project stages effectively.
  - Deliver tangible outputs and foster a growth mindset to promote innovation and continuous improvement.
  - Build resilience and momentum through urgency, commitment, and affinity for project success.

### What's included?

- Pocketbook of Leader's Success Factors
- 'Project Success Through Leadership' Book
- 'Collaboration in a Digital World' Book

## Level 3 PROJECT LEADERS LAUNCHPAD

**Time commitment**  
4 x 4 hours (16 hours) virtual training

**Focus**  
Provide intensive, in-depth exploration and application of advanced concepts, with ample time for practice and feedback.

**Objective**  
To equip participants with the essential skills necessary for transitioning from a technical manager to a highly effective leader.

### What will you experience from this program

- Part A: Commitment to Project Fundamentals and Goal Setting**
- Commit to SEVEN project fundamentals and identify improvement actions.
  - Assess strengths and weaknesses, confidently create SMART goals.
  - Differentiate between project stages and set clear conversation expectations.
- Part B: Facilitation and Continuous Improvement**
- Harness collective knowledge through facilitation and project management tools.
  - Apply continuous improvement, identify elements for enhanced ownership.
  - Gain confidence in using collaboration methods and digital tools.
- Part C: Effective Leadership Transition**
- Apply project management steps, map projects onto lifecycles.
  - Acquire skills in selecting, planning, and scheduling facilitation work.
  - Avoid mistakes, apply project fundamentals, and transition confidently.

### What's included?

- 'Project Success Toolkit' (150 tools & Book)
- 'Project Success Scenarios' (41 Scenarios & Book)
- Project Success Methods Cards (set of 150)
- Collaboration Methods Cards (set of 100)
